Projects

- **Portfolio Builder**
 - A platform that allows you to add, edit, and delete your portfolio pieces and projects and a platform that can help you to create your own blog. This project was created with React, Firebase, and PostMan -API. <https://hvaandres.herokuapp.com/>
- **E-Commerce Site:**
 - An online store that allows new and current clients to buy their fences in a different way by using Woocommerce, Vue.js, SQL, PostMan - API, WordPress, and a range of Front-End Development techniques. <https://www.yournextfence.com/>
- **Quizzler - iOS:**
 - An iOS application that allows you to have a quiz and a multiple choice quiz where you learn how to change UI Elements like Labels and Buttons, changing the design pattern, Swift Structures, learning the difference in between value types and reference types, Classes, and learning about Object-Oriented Programming. <https://github.com/hvaandres/Quizzler-iOS13>
- **BMI Calculator - iOS:**
 - The goal of this project is to learn more about Optionals, solidify your understanding of the MVC design pattern, and to introduce the concept of Classes. <https://github.com/hvaandres/BMI-Calculator-iOS13>

Awards

- Full-Stack Developer Diploma | Quality Assurance Certificate | iOS Developer Certificate | Technical Writing Certificate
